

# High quality time and space in aircraft seating

There are 3 main key factors offer the valued product to customers and society, this design philosophy expresses TB (Toyota Boshoku) Aircraft Seating. Product concept is to offer high quality time and space in aircraft seating.

### For Comfortability

We provide full support for hips and pelvis by a unique seat flame profile, this optimized design provides seating comfort for various physiques and contribute to disperse body pressure form seating position.

#### For Reliability

We marked a remarkable quality performance of the maintenance for seats delivered to our first customer. This achievement was highly evaluated and we received the letter or appreciation on reducing the customer's maintenance cost.

#### For Usability

Positions and shapes of features such as Meal Table, Armrest and Monitor are set to be comfortable for all passengers considered various physiques.

Additionally, some of the design knowledge from automotive seating are incorporated into our design for instance, Table Latch and Cup Holder.

TOYOTA BOSHOKU philosophy T1 Series Maximize Seat Comfort Human-centered Design T1 Series Features

## T1 Series

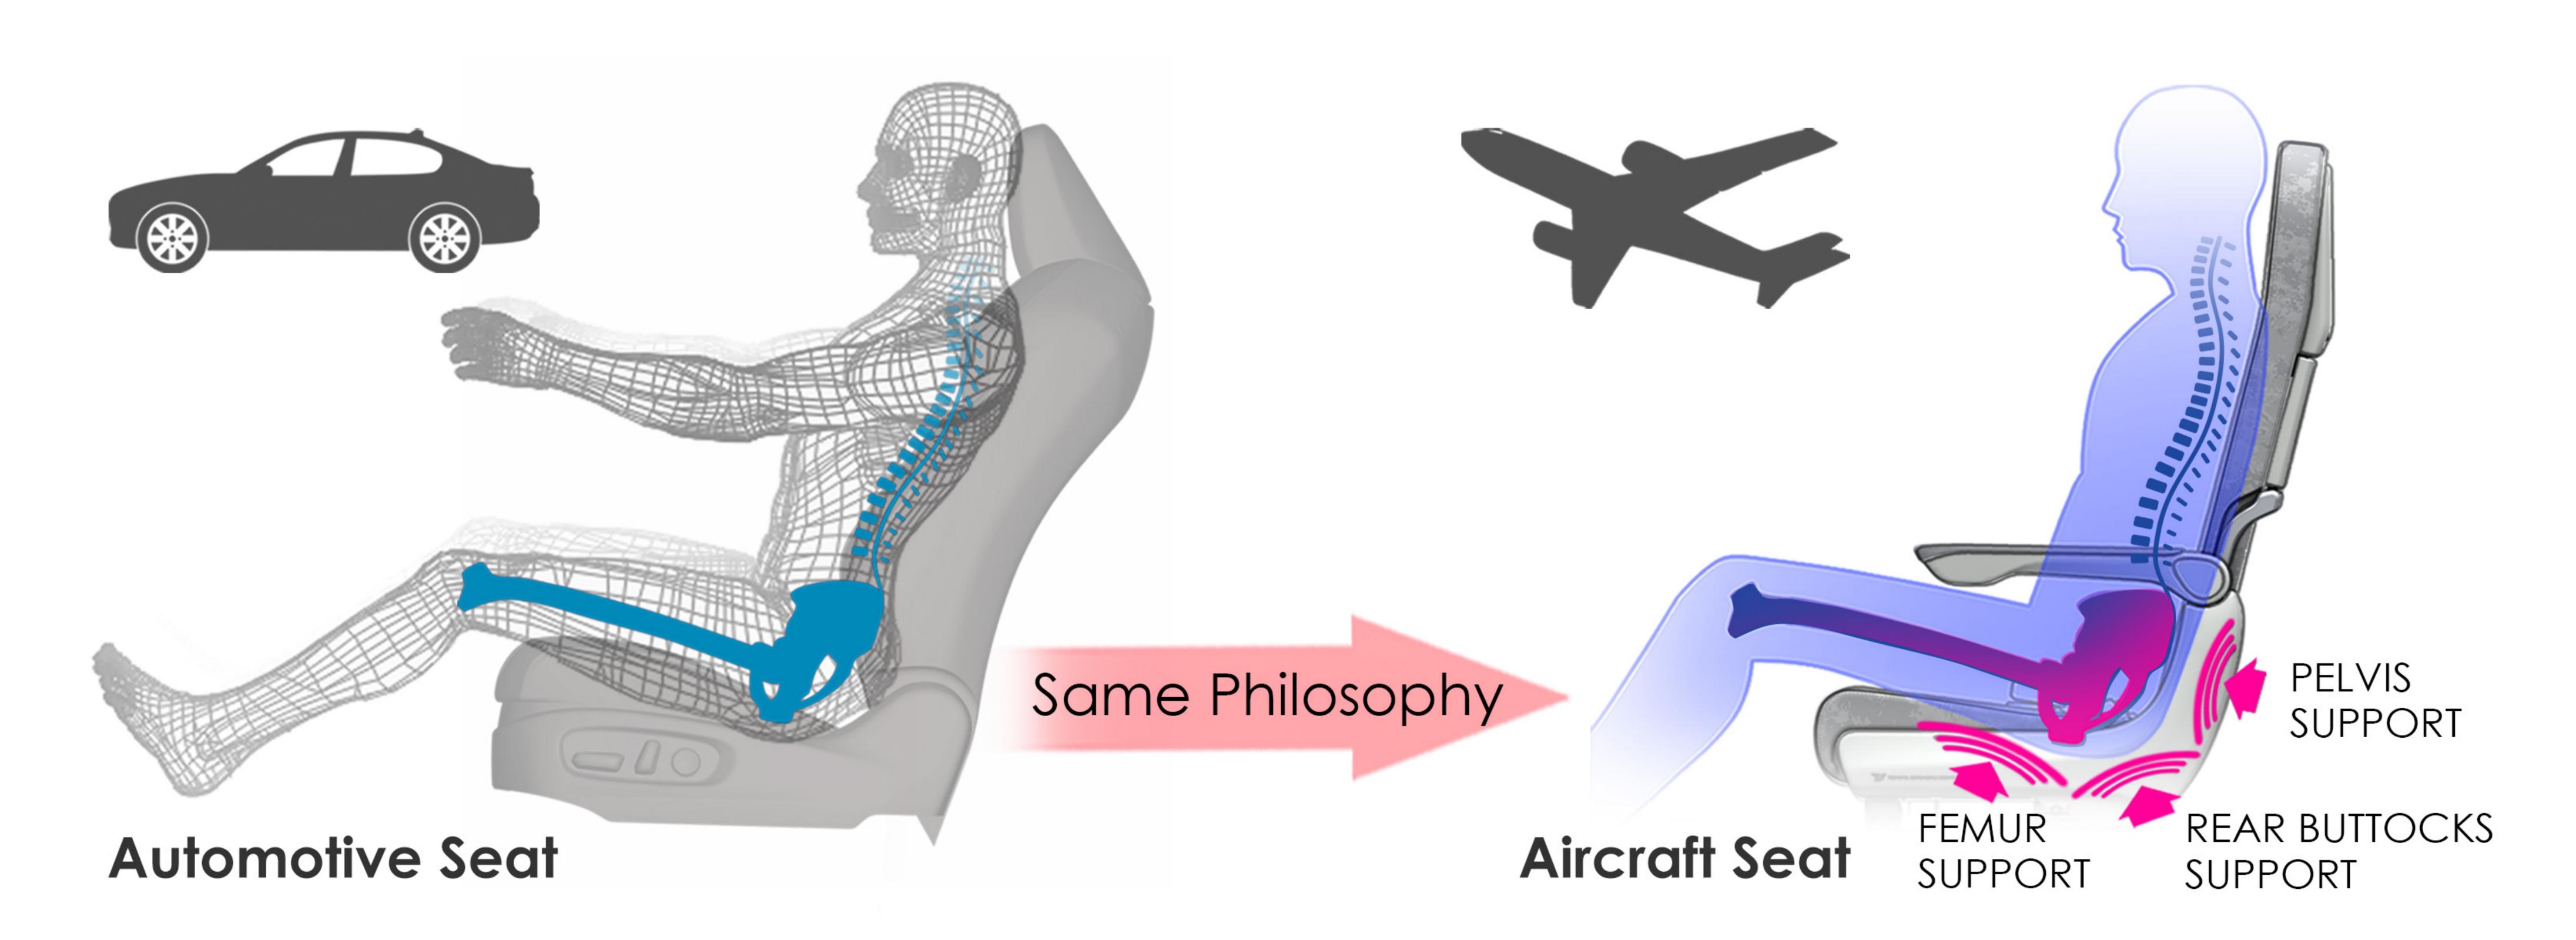

Aircraft : Boeing 777 and 787

Certification : TSO-C127b Seat Pitch : 30" to 34" Monitor Provision : Up to 13"

Recline : Up to 3" with pre-reclined

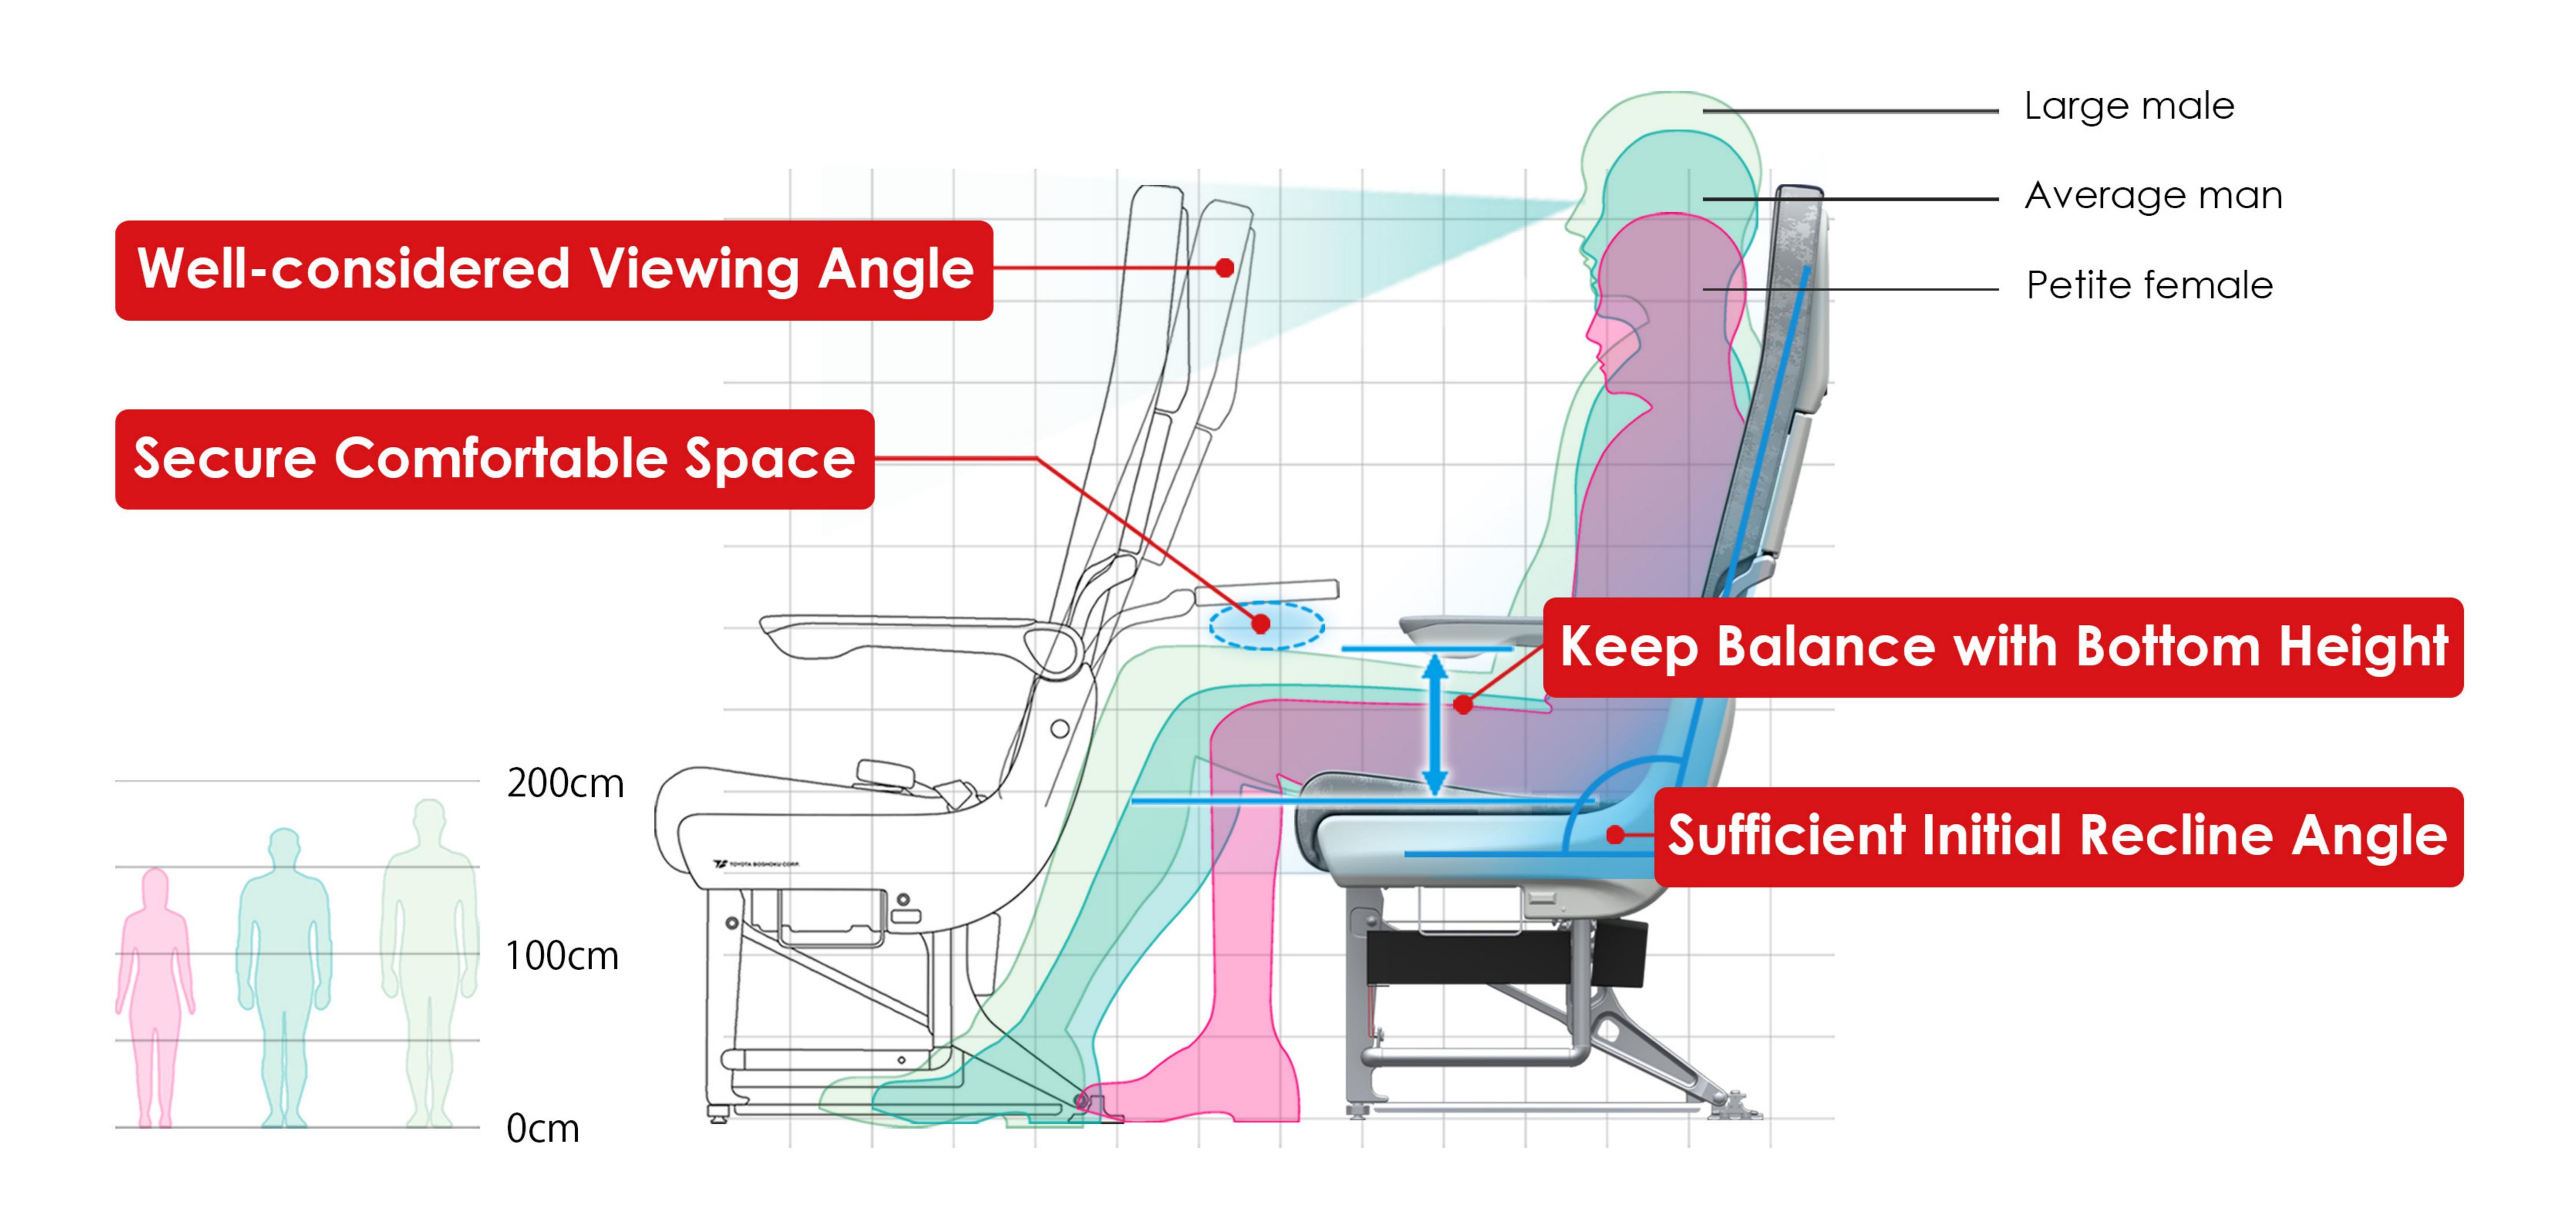

## Maximize Seat Comfort

Utilize know-how into Seating Comfort
